

The Medeco XT Solution

Approved Protection Systems

Since 1929

(800) 339-1579

Medeco XT is a pure electronic master key system providing Controlled Access, Accountability, Physical Security and effective System Management. More than just a way to protect your property, equipment and assets, Medeco XT is also a business tool that can lead to a substantial return on investment.

THE MEDECO XT SYSTEM PROVIDES:

Controlled Access

Keys are electronically programmed to open only specific locks during a designated schedule. Schedules may also contain an expiration point to completely disable the key until it is audited and reprogrammed.

Accountability

Audit information recorded in both the lock and key shows a time-and-date stamped record of every event, including authorized accesses and unauthorized attempts.

Electronic Rekeying & Scheduling

Respond quickly to security threats, lost or stolen keys, or personnel changes without the added cost of changing your locks and keys.

Easy Installation

Medeco XT keys provide all power to the cylinder, eliminating the need for any hard wiring or power supply. Simply remove the existing mechanical cylinder and install the Medeco XT cylinder.

Physical Security

Medeco XT products add a wide variety of intelligent features without compromising on physical security. Attack-resistant design and tamper-proof features provide strong protection against forced entry.

Efficient System Management

Medeco XT software contains tools that will help you manage your security more efficiently. Flexible programming, scheduled access and full audit reports are offered with the convenience of stand-alone or web-based software.

Unlimited Applications

Medeco XT cylinders are available to fit nearly any application or hardware type for enhanced security and accountability.

When you need high security protection, don't rely on an ordinary lock.

Medeco offers a unique combination of mechanical and intelligent key solutions customizable for any application. Founded in 1968, Medeco® is a market leader in locks and locking systems for security, safety, and control. Medeco® locks protect U.S. government and military installations, both here and abroad, as well as schools and universities, hospitals and banks, vending machines and parking meters, homes and offices, and much, much more.

Medeco® is an ASSA ABLOY Group company. The ASSA ABLOY Group is the world's leading manufacturer and supplier of locks and associated products, dedicated to satisfying end-user needs for security, safety and convenience.
